NAHANT DORY CLUB REGULATIONS

All members are required to volunteer some of their time and efforts in the maintenance of the Clubhouse, helping with social activities, race management, or assisting in the launch/pull of the floats.

Members are responsible and will be held accountable for the behavior of their relatives and guests and shall insure their compliance with all the rules of the Club.

No children under the age of 21 years are allowed in the Clubhouse without the supervision of an adult member.

Memberships are not transferable, and any guests must be accompanied by the member. Key cards may not be shared with anyone not listed on your membership application.

Smoking is not permitted inside the Clubhouse.

The clubhouse is intended for use by members with their immediate families or a reasonable number of guests at any time during the season, and their access shall not be inhibited by the non-exclusive use by any large group. For any group larger than twelve (12) persons wishing to hold a family function, or for use by a local civic group, application must be made in advance, in writing to the Executive Council for permission to use the clubhouse.

Members may use the outside gas grill. Please clean the grill and shut off the gas tank, clean up tables, etc. when done. If propane gas is running low, please notify the Council.

Doors and windows should be shut and locked, and lights turned off when you leave the building.

Any member of the Club may have their privilege of membership forfeited for willful violation of Club Regulations or Dory Club By-Laws.
